MOTO

CHEMICAL & STAIN RESISTANCE

Declare.

мото Inhaus Surfaces Ltd.

Final Assembly: Bunkyo-ku, Tokyo, Japan Life Expectancy: Commercial: 15 Year(s) End of Life Options: Recyclable (100%)

Ingredients:

Filler: Calcium carbonate; Polymer: Polypropylene; Stabil zer: Poly(oxy-1,2-ethanediyl), α-tridecyl-ω-hydroxy-, phosphate Poly(oxy-1,2-ethanediyl), α-tridecyl-ω-hydroxy-; UV Coat: Hexanedicio caid, polymer with 1,2-ethanediol and 1,6-diisocyanato-2,2,4(or 2,4,4)-trimethylhexane, 2-hydroxyethyl acrylate-blocked; 4-(1-0XC-2-PROPENYL)-MORPHOLINE; 2 Propenoic acid, (1-methyl-12-ethanediyl) bis[oxy(methyl-2,ethanediy[)] ester; 2-Propenoic acid, 1,6-hexanediy[ester; Amorphous silica; **Pigment/Ink:** Ethyl Acetate; 2-Propanol, 1methoxy-; Isopropyl alcohol; Methyl Ethyl Ketone

Living Building Challenge Criteria: Compliant

I-13 Red List: % Disclosed: 100% at 100ppm LBC Red List Free LBC Red List Approved VOC Content: Not Applicable Declared

I-10 Interior Performance: CDPH Standard Method v1.2-2017 I-14 Responsible Sourcing: Not Applicable

POLYPROPYLENE MINERAL COMPOSITE CORE

MOTO PVC-free resilient flooring is engineered to meet the performance and safety requirements of today's most demanding commercial specifiers. Made with a Polypropylene and mineral composite, MOTO is highly durable and does not contain any phthalates, plasticizers, formaldehyde, or heavy metals, making it ideal for commercial applications, especially those that require low VOC emissions.

100% PVC-FREE

- No phthalates, plasticizers, formaldehyde, halogens, or heavy metals
- Third-party certified by FloorScore & Declare (Red List Free)
- Safe for use in spaces with stringent emission requirements

100% WATERPROOF

- Worry-free and easy to maintain
- Provides protection against the growth of mold

CHEMICAL & STAIN RESISTANCE

- Exceeds ASTM F925
- (See chemical & stain resistance testing sheet)

DURABILITY

- AC6 Wear rating
- 20mil/0.5mm wear polypropylene layer warrantied to withstand commercial traffic

PVC-FREE CONSTRUCTION

1. WEAR LAYER

- Commercial rated 20 mil (0.5 mm) polypropylene wear layer
- UV coated for additional wear resistance
- Engineered for clarity

3. MINERAL COMPOSITE CORE

- Mineral Composite and Polypropylene (MCP)
- Waterproof, dent-proof, minimizes telegraphing
- Developed to meet advanced health and safety requirements

4. BALANCING LAYER

- Provides dimensional stability
- Engineered for maximum adhesive bond

SAFETY	&	PERF	ORMANC	Έ	

- Advanced slip resistance- meets "high traction" DCOF of .43
- Fire rating exceeds NFPA Critical Radiant Flux Requirements
- Dynamic rolling loads exceeds ASTM F2753
- Static load exceeds 2,000 psi ASTM F970
- Abrasion resistance exceeds requirements ASTM FD4060

FADE PROOF

• Will not fade over time when exposed to direct sunlight

MADE IN JAPAN

• Globally known for high-quality standards and superior end products

EASY APPLICATION

• MOTO uses a glue-down installation method and is designed to work with widely available commercial adhesives

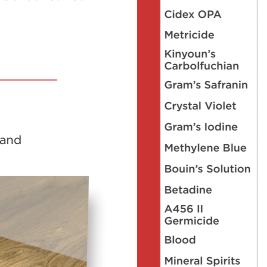

2. DECOR LAYER

Polypropylene film

(2)

• Provides clear designs and vivid color
