

Moto is a high-performance, commercial-grade PVC-free flooring designed with a focus on health and safety. Engineered to meet the performance requirements of today's most demanding commercial specifiers, it features an ultra-durable construction that is 100% free of PVC, phthalates, plasticizers, formaldehyde, or heavy metals, making it ideal for high-traffic spaces with stringent indoor air quality standards.

THIRD-PARTY CERTIFICATIONS

DECLARE - RED LIST FREE

Moto is certified by The International Living Future Institute as part of the Declare Red List Free program. This certification ensures that this product meets the requirements of leading green building standards, including the Core Green Building, LBC, LEED, and WELL Certifications.

- **DECLARED** products disclose 100% of ingredients present in the final product, but contain one or more Red List chemicals that are not covered by an approved exception.
- **LBC RED LIST FREE** products disclose 100% of ingredients present at or above 100 ppm (0.01%) in the final product and do not contain any Red List chemicals.
