CERAMIN®

The Ceramin® Story – beautiful and durable floors that are good for you and the environment. Containing no toxins or PVC, Ceramin® floors will contribute to a healthy home while keeping plastics out of our landfills and oceans by using a minimum 25% post-consumer material and being 100% recyclable.

WATERPROOF

- 100% waterproof — suitable for use in all rooms, including bathrooms, kitchens, three-season rooms, and basements
- Dimensionally stable in high humidity and extreme temperatures — eliminates gapping or cupping issues

ULTRA DURABLE

- High abrasion and micro-scratch resistance (Usage Class 32 – Moderate Commercial)
- Lifetime guarantee against color fading
- Easyloc® (angle-angle) locking system allows for installations up to 10,000 sqft without transitions

PVC & TOXIN FREE

- Contains no PVC, formaldehyde, phthalates, or plasticizers
- Ultra-low VOC emissions for healthy home environments

Declare.

BETTER FOR THE ENVIRONMENT

RECYCLE BIN FRIENDLY

- 100% recyclable and can be included with common household recyclable plastics such as milk containers, plastic bottles, and packaging

25% POST-CONSUMER MATERIAL

- Planks contain a minimum of 25% post-consumer material like yogurt cups and food packaging
- Zero waste manufacturing — production waste and excess material is processed into granulate and added back into the production process
- 100% of electricity used in Ceramin® production comes from hydropower

OVERALL THICKNESS	5MM (w/ 1MM PAD)
PLANK DIMENSIONS	50.8" x 8.0"
UNIQUE PLANKS*	18
